Speaker Programme Outline - International Tin Conference 2024

Join us for the conference sessions on 15th and 16th May for an immersive programme including keynote presentations by industry leaders and interactive sessions that delve into the pressing issues and opportunities facing the tin industry. Gain valuable insights on the significant shifts and trends shaping the tin industry.

TIN2030: Central to this year's conference is our groundbreaking work on 'TIN2030 – A Vision for Tin'.

- **Sustainability & ESG Leadership:** Amidst the rise of ESG (Environmental, Social, and Governance) expectations, we'll discuss the opportunities, challenges, and our road towards responsible tin production for a sustainable future.
- **Technology:** Understand how digitalisation, energy transitions, and sustainable technologies are driving change in the tin industry.
- **Markets:** Stay updated on the latest trends, including new investments, resource discoveries, smelting capacity expansion, and the evolving role of recycling in the tin sector.

Networking Opportunities: Make the most of numerous opportunities to engage with industry peers, through leaders, and stakeholders.

Further details will be made available on our event website. Join us for two days of insightful discussions and networking at the International Tin Conference 2024.

Networking Trip

Heritage Tour

This tour will take you from the hotel in air conditioned transport to George Town, where the walking tour will begin. Discovering George Town's historical past from its diverse architecture, monuments and traditional trades. Visiting Khoo Kongsi Mansion – one of the most distinctive Chinese clan associations in Malaysia. Discovering Little India - one of the oldest Indian enclaves in Malaysia, where you will get to see bustling shops selling everything from colourful Indian wears, gold jewelry, to mouthwatering Indian food and sweets while playing some peppy Tamil songs at the back ground. You will have the opportunity to sample local snacks such as Samosa, Fresh Coconut Water, Teh Tarik, Masala Tea, Shave Ice with Syrup and many more from the hawker stalls. An additional fee applies for this tour.

Industry Tours

Smelter Visit

Malaysia Smelting Corporation (MSC) undertakes its smelting activities at the modern and cost-efficient smelter located in Pulau Indah, Port Klang. The heart of this facility is the state-of-the-art Top Submerged Lance (TSL) furnace, which is capable of converting up to 60,000 tonnes of tin-bearing ore to premium-grade tin metal annually using oxygen enrichment. The installation of 1.26 MWp solar photovoltaic panels at the Pulau Indah facility showcases MSC's strong commitment to sustainability, projected to reduce the Group's carbon footprint by 1,000 tonnes annually.

Mine Tour

Rahman Hydraulic Tin (RHT) mine is Malaysia's largest open-pit hard-rock tin mine located in the northern part of Peninsular Malaysia. Boasting a rich history, it is currently producing over 3,500 tonnes of tin-in-concentrates (2023). At the RHT Tin Mine, MSC's dedication to ESG progress shines through as the company endeavours to achieve net-zero carbon emissions. The possible upgrading of the existing mini hydro power plant and or planting up a new solar generation installation signifies a proactive approach towards greener operations and a more sustainable future.

Conference Registration Information

Conference fees

Rates (Currency US\$)	Early Booking Fees (until 15th February 2024)	Full Fees
Delegate	\$1650	\$1975
