Industry Tours

Minsur Pisco Smelter Tour, Ica, Peru
Monday 5th April 06.00 - 18.00 (Tour A)
Monday 5th April 07.00 - 19.00 (Tour B)

Visit Minsur's Pisco Smelting and Refining Plant, located in the province of Pisco, in the Ica region, and in operation since 1996. During the tour, they will gain an overview of the process through which tin concentrates from the San Rafael mine in Puno, one of the world's leading tin mines, are transformed into high-purity refined tin for use in industries worldwide. They will also learn about some of the safety standards, operational practices and sustainability initiatives that form part of Minsur's operations. In 2025, the refinery produced 32,982 tonnes of refined tin. Full details available on the event website.
